

>> Coperion know-how at your disposal: Seminars on Process Technology for Polyolefin Compounding in 2020

COURSE OBJECTIVES

- To provide process engineers and operation supervisors with an understanding of the fundamental and practical aspects of the design and operating mode of a ZSK twin screw compounder
- To update knowledge in the field of polyolefin compounding

LANGUAGE

All courses will be held in English if there is no other predefinition.

TRAINER

Heiko Hornberger
Manager Process Technology Polyolefins
Coperion GmbH, Stuttgart, Germany

DATES AND LOCATION

SESSION 1

upon request

Coperion GmbH, Stuttgart, Germany

SEMINAR FEE

EUR 1.330,- per trainee. This price will be charged plus VAT.

ATTENDEES WILL RECEIVE

- Coloured Coperion textbook
PROCESS TRAINING ON POLYOLEFIN
COMPOUNDING
- Certificate upon completion of the course
- Small breakfast, lunch and drinks during
a.m./p.m. breaks
- Shuttle service to and from the hotel to
Coperion, Stuttgart
- Discount on room rates at the
Kongresshotel Europe, Siemensstrasse 26,
70469 Stuttgart, Germany

INDIVIDUAL SEMINARS

In addition to the regularly scheduled classes in Stuttgart, Germany, courses can be held at your company's site.

Training contents can be modified according to your objectives. Having discussed your needs we work out a customized training schedule and pricing for you.

>> Content. Seminar on Process Technology for Polyolefin Compounding

DAY 1

- Basic process knowledge in the field of polyolefin compounding
- Self cleaning screw profile of twin screw extruders
- Development of the ZSK twin screw extruders
- Screw elements: layout and definitions
- Working principle of screw elements
- Compounding plants and comparison of different extruder systems
- Process sections inside of the ZSK
 - Feeding
 - Melting
 - Degassing
 - Metering
 - Screw tip design
- Materials for different applications
- Screen changer
- Melt Pump
- Pelletizer
- Plant layout
 - Compounding and Pelletizing of Polyolefin
 - Compounding of Bimodal Polyethylene
 - Pelletizing of Polymer Melts
 - Devolization of Polymer Solutions

DAY 2

- Process variables
 - Specific energy influence of rate and screw speed
 - Motor load (torque)
 - Temperature profile: influence of the various operating parameters
- Latest Coperion developments and insights in the field of polyolefin compounding
- Interlocks
 - Interlock sequences
 - Start up sequences
- Scale-up
 - Methods to design a compounding line
 - Product properties
 - Interlock sequence
 - Specific energy
 - Melt temperature
- Trouble shooting
 - Operating window
 - Analysis of rate limitations
 - Torque limitations
 - Melting limitations
 - Vent limitations
 - Feed limitations
 - Pressure limitations
