Press release

Coperion at K 2016

Coperion exhibits Intelligent FFS Packaging Machine ITL 500 at K 2016 in Duesseldorf

Stuttgart, September 2016 – Coperion introduces the latest developments in its bagging and palletizing portfolio at K 2016 at its booth B19 in hall 14. Visitors will be able to see the completely re-designed FFS packaging machine ITL 500.

The FFS Packaging Machine ITL 500 with automated features provides accurate weighing, ideal dosing and hygienic packaging for crystalline, granular, beaded or flaked goods. The machine impresses with a small footprint and a quick accessibility for easy maintenance. Easy and intuitive touchscreen navigation is possible for operation, setting changes and maintenance. The modular design facilitates future capacity upgrades.

Intelligent FFS Packaging Machine ITL 500 with automated features

Due to a variety of new design details, this machine now works even more efficiently than the previous model. The new conical shape of the loading hopper assures less dead zones and better cleanability. Faster and more accurate dosing can be achieved by the new, servo-actuated gravity feeder. Furthermore, the machine is equipped with a vacuum pump, instead of a venturi system, which results in better vacuum flow for moisture sensitive products and improved bag shaping. Additional design improvements include a new body frame with motorized reel unwinder, new filling spout, motorized pivoting arms and outlet conveyor.

September 2016

Together, all these enhancements ensure more efficient and reliable operation. Beyond that, a mobile version mounted on a motorized cart is also available.

Coperion (www.coperion.com) is the international market and technology leader in compounding systems, feeding technology, bulk materials handling systems and services. Coperion designs, develops, manufactures and maintains systems, machines and components for the plastics, chemicals, pharmaceutical, food and minerals industries. Within its four divisions – Compounding & Extrusion, Equipment & Systems, Materials Handling and Service – Coperion has 2,500 employees and nearly 40 sales and service companies worldwide.
