COPERION- WHO WE ARE

Peter von Hoffmann

sucs shrough General Manager, Business Engineering Plastics and Special Applications

9:30	Welcome Peter von Hoffman I General Manager, Business Unit Compounding Machines Engineering Plastics and Special Applications I Coperion Stuttgart
10:00	New Omya Products to Address Challenges in Compounding Ashish Bhatt I Head of Technical Service – Polymers I Omya
10:30	Innovations in Plastics Recycling Peter von Hoffman I General Manager, Business Unit Compounding Machines Engineering Plastics and Special Applications Coperion Stuttgart
11:00	Coffee break
11:15	The Future of Efficient Compounding Technology: New Developments in Engineering Plastics, Biopolymers and Other Compounding Tasks Preet Bhagwanani I General Manager I Coperion India
11:45	Latest Developments in Polyolefin Compounding Vinay Kumar I Sales Manager I Coperion India
12:00	Individual Plant Concepts and Customized Systems: Why an Efficient Plant is More Than Just the Sum of its Parts Shamsher Singh I Vice President – Customer Service I Coperion India
12:30	Lunch Innovation Leader in Underwater Pelletizing System
13:30	Innovation Leader in Underwater Pelletizing System
14:00	Why Precise Feeding Saves a lot of Money: The Importance of Accurate Feeding for an Efficient Production Process Shalom MJ I Regional Sales Manager I Coperion India
14:30	First-Class Handling for First-Class Products: Special Components in Material Handling Plants Anshul Mathur I Senior Sales Manager I Coperior India
15:00	Coffee break
15:15	Coperion Nanjing: Compounding Solutions for an Optimized Productivity Peter von Hoffman I General Manager, Business Unit Compounding Machines Engineering Plastics and Special Applications I Coperion Stuttgart
15:45	Coperion Service: 450 Partners Secure your Future Peter von Hoffman I General Manager, Business Unit Compounding Machines Engineering Plastics and Special Applications I Coperion Stuttgart
16:15	Questions and answers

SHAPE

To be able to provide total solutions. For a wide range of shallenges

ertnership

For more recycling of all kinds of plastic ip

Confidence For powerful batteries and a rapid mobility turnaround

For more food safet) fill certain ability and sustainability

- The Ender A. S. No.

partnership

bugh

We are **5,000 employees** worldwide, combining engineering expertise, quality and reliability

WHAT MATTERS

Every day our experts work on high-quality process technology – optimized for the best end products, highest efficiency and sustainability coperion

rough

Roadshow 2025

Leading industrial brands

Serving large, attractive end markets

Shared Core Strengths & Characteristics Strong brands with leadership Solitions Highly-engineered and mission-critical solutions Core Unientary processing capabilities and Splication expertise

coperion

Common **manufacturing**, **engineering** and **procurement processes**

- Longstanding customer relationships
- Comprehensive **aftermarket sales** services

Total Addressable Market (TAM) and growth rates based on company estimat

APS metrics are TTM as of 6/30/2023 and are adjusted for the acquisitions of Herbold, Linxis, Peerless, and expected FPM based on estimated TTM ended 6/30/23. Revenue is shown on a pro forma basis, and adjusted EBITDA margin is shown on a illustrative combined basis. Pro forma revenue and illustrative combined adjusted EBITDA margin are non-GAAP measures. See appendix for GAAP reconciliation. MIS metrics are TTM as of 6/30/2023. Adjusted EBITDA margin is a non-GAAP measure. See appendix for GAAP reconciliation.

R

Performance Materials Division

For high-quality end products: From single components to complete systems

Plastics manufacturing systems Plastics extrusion and compounding system Complete recycling systems with Herbold Meckesheim

- Washing Leparating and drying systems
 Materials handling and logistic solutions
 Feeding and weighing solutions
- Compounding machines & extrusion systems
- New: Clamshell design twin screws also available
- Bulk materials components and special process components
- Bagging and palletizing systems
- Engineering competence and process know-how
- Installation and commissioning

Performance Materials Division

For high-quality end products: From single components to complete systems

Target Markets

- Polyolefin Industry
- Engineering Plastics
- Masterbatch
- PVC/HFFR
- Plastics Recycling
- Bio Plastics
- Direct Extrusion
- Battery Masses
- Battery Separator Films
- Chemical Applications
- Minerals
- Nonwovens

Our Promise Three divisions for first-class solutions

coperion

FOR TOMORROW

• We constantly learn and improve! To better support our customers and partners coperion

With most comprehensive equipped test centers worldwide – 25 in total

With C-BEYOND and
 other digital products
 and service platforms
 for more efficiency

ersi

Effcient Sustainable Confidence through a fillence technology solutions
